Resource Generation is developing the Boikarabelo coal mine in the Waterberg region of South Africa, which accounts for 40% of the country's remaining coal resources. There are probable reserves of 744.8 million tonnes of coal on 35% of the tenements under the company's control (refer ASX announcement dated 16 December 2010). Stage 1 of the mine development targets saleable coal production of 6 million tonnes per annum.
