ASX Announcement

EGM Update

Resource Generation Limited (ASX:RES) (**Resgen** or **Company**) provides the following update in relation to the Extraordinary General Meeting (**EGM**) of Shareholders scheduled for Tuesday 7 April 2019 (see Notice of Meeting released to the ASX on 5 March 2020). The EGM is being held for the purposes of seeking Shareholder approval for the Mine Funding Package detailed in the Notice of Meeting, including the Independent Expert's Report.

In response to combating the risks associated with the COVID-19 virus, Governments around the world have introduced travel and public gathering restrictions. These measures will impact the EGM scheduled for 7 April 2020 in Brisbane including the inability of the South African based Directors and Management Team to travel to Australia.

The Company is in the process of considering alternative EGM arrangements that will enable Shareholders to participate whilst safeguarding the health and safety of its Directors, Shareholders, employees and the broader community by restricting attendance at a physical location. It should be noted that the Board considered deferring the EGM to a later date, however time is of the essence to finalise the Mine Funding Package as the Company has access to limited financial resources and further delays may impact the Project economics.

The Company will provide further updates in due course in relation to the EGM arrangements. In the interim the Company strongly encourages:
